Bachelor of Science in Information Technology
Caraga State University, Ampayon, Butuan City, Agusan del Norte | Cum Laude

2025 - 2029

Senior High School, Science Technology Engineering and Mathematics
Agusan National High School | With Highest Honor

2024 - 2025

Junior High School
Agusan National High School | With High Honor

2023 - 2024

PROJECTS

Kyosh Account Inventory
Built a web-based inventory system for managing accounts and tracking earnings. Added automatic total calculations, earning range organization, and a copy feature to make data management faster.

Kyosh Account Monitor
Built a web-based monitoring system for tracking real-time account status, activity, earnings, and inventory. Added online and offline monitoring, last-seen tracking, and account performance information.

KORMS RNG (Roblox Game)
Built a Roblox RNG game with aura collection, quests, artifacts, and a weather-based luck system. Worked on scripting, gameplay systems, UI, and player progression.

Steal a Brainrot: Bridge and Shop (Roblox Game)
Built a Roblox game with a glass bridge challenge, an in-game shop, progression, and reward systems. Worked on gameplay mechanics, scripting, UI, and player experience.

Roblox Client-Side Scripting (SAE)
Wrote client-side Lua scripts for player controls, egg mechanics, utility functions, and custom UI systems. Improved skills in Lua scripting, debugging, and Roblox game development.

Roblox Client-Side Scripting (GAG2)
Wrote Lua scripts for utility tools, player controls, garden interactions, and custom UI systems in Roblox Studio. Improved skills in Lua scripting, UI development, and debugging.
