MARI-FLOR A. DOLLAGA-LIBANG

Regional Director

Department of Social Welfare and Development – Field Office Caraga

R. Palma St., Butuan City, Philippines 8600

Dear Regional Director Dollaga-Libang:

Greetings!

I am writing to express my interest in applying for a Junior Web Developer position at the Department of Social Welfare and Development – Field Office Caraga. As a graduate of Bachelor of Science in Information Technology from Caraga State University, I have developed knowledge and practical skills in web development, programming, database management, and user interface design. I am eager to apply the knowledge and skills I gained throughout my studies in a professional IT environment and contribute to the development of useful digital systems and services.

During my academic years, I gained practical experience by developing different programming and web-based projects. I worked with HTML and CSS and developed my skills in JavaScript and responsive web design. Projects such as Kyosh Account Inventory and Kyosh Account Monitor allowed me to practice creating user interfaces, organizing information, managing data, and developing useful web-based features. These projects strengthened my problem-solving, logical-thinking, creativity, and attention to detail.

I also have experience with C, Java, Lua, SQL, database design, ERD, 3NF, GitHub, and Cisco Packet Tracer. In addition, I developed projects using Roblox Studio and Lua, where I created game systems, scripts, user interfaces, and gameplay features. These experiences helped me become adaptable and comfortable learning different technologies. My e-portfolio presents these projects, skills, and experiences and provides a more detailed view of my development as an IT professional.

I believe that my technical skills, creativity, willingness to learn, and ability to work on different types of projects would allow me to contribute positively to DSWD Field Office Caraga. I am willing to learn from experienced professionals, accept new challenges, and continue improving my skills as I begin my career in the IT industry. I would be grateful for the opportunity to discuss how my skills and qualifications may contribute to your organization. Thank you for your time and consideration. If you have any questions, you may contact me at kienshardy145@gmail.com. I look forward to the opportunity to be considered for the position.

Very respectfully yours,

KIEN SHARDY N. ODJOY
